FINANCIAL POLICY

Welcome! Thank you for selecting us as your dental care provider. Our goal is to provide you and your family with optimal dental care. We want you to feel welcome and as comfortable as possible throughout our relationship. We encourage you to ask questions and to be involved in treatment decisions. This includes understanding your treatment plan as well as our financial policy.

Financial Agreement:

Patients are expected to pay for your services at the time they are rendered. Our patients who have dental insurance are expected to pay the amount of their estimated co-pay and deductible at the time of service. Payments may be made using cash, check, Visa and MasterCard. We also offer zero percent financing that is available for healthcare expenses. We will mail monthly statements to all patients with an outstanding balance charged at 18% per year after 90 days.

Appointments:

In order to serve you better and keep the cost of dental care down, we try to maintain an efficient appointment system. However, our cost of providing care increases greatly when people fail to keep scheduled appointments or cancel at the last minute. We require at least 24 hours notice for any cancelled appointment or you may be subject to a \$35 charge. After 3 missed appointments or cancellations we will place you on a short call list, which means we will phone you when an appointment time becomes available on short notice.

Insurance Information

As a courtesy to our insured patients, we submit claims to your insurance company free of charge. We will help you to receive your maximum allowable benefits. In order to do this, we need your insurance card and/or insurance policy with your first visit every calendar year. (Your insurance year may not run Jan-Dec.)

All of our doctors will diagnose treatment on your dental health, not your insurance coverage

You must realize that dental insurance isn't really insurance, it is actually a money benefit, typically provided by an employer, that helps their employees pay for routine dental services. The employer usually buys a plan based on the amount of benefit and how much the premium costs per month. Most benefit plans are only designed to cover a portion of the total cost of a person's necessary dental treatment.

If your insurance has not paid within 90 days of services rendered, you will need to make full payment to this office and be reimbursed when your insurance company pays. After 90 days the patient is responsible to pursue payment from the insurance company. All current documentation will be provided by mail in order to assist your inquires. The insured has a better ability to deal with insurance companies and the employer is responsible for the policy.

Please indicate your understanding and acceptance of these policies by signing below. For the mutual convenience of you and the practice, it is understood that his executed copy of the Policies also shall cover dependent children who are patients of the practice.
